

HB 2080

Planer bench in professional design

- ▶ Particularly heavy-duty design of the table and base frame for stability
- ▶ Precise and careful processing
- ▶ Made entirely from steamed, solid copper beech
- ▶ Dovetail galvanisation in rear clamp and axe back
- ▶ All important edges are rounded
- ▶ Surfaces oiled in an environmentally friendly way
- ▶ With tool drawer as standard
- ▶ French front pliers with double spindle with concealed transmission by means of gears and chain
- ▶ With German rear pliers and double linear guide
- ▶ Dovetail galvanisation in rear gripper and axe back

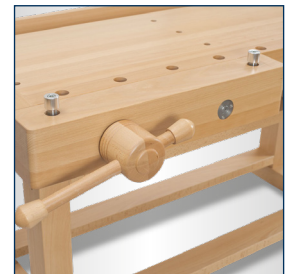

Scope of delivery HB 2080:

- Two short round bench hooks
- Two long round bench hooks
- Drawer
- Drawer

Model	HB 2080
Article No.	5102180

Technical data	
Max. load capacity	750 kg
Work surface without clamps	1910 x 615 mm
Length front/rear clamp	700 mm / 460 mm
Width front/rear clamp	100 mm / 140 mm
Wingspan front clamp	250 mm
Span rear clamp	215 mm
Panel thickness	80 mm
Working height	870 mm
Dimensions (L x W x H) approx.	2165 x 855 x 870 mm
Weight approx.	141 kg

FAB 500

Versatile folding work trestle for mobile use

- ▶ Can be used as a frame for worktops, as a sawhorse or scaffolding trestle
- ▶ Anti-slip surfaces on the top
- ▶ Two fold-out brackets on the legs for vertical storage, e.g. of larger panels
- ▶ Brackets on both sides for connecting two work trestles enable the construction of a stable work table
- ▶ Easy to transport: foldable, legs then fully stowed in the housing, with carrying handle

Model	FAB 500
Article No.	5900015

Technical data	
Static vertical load max.	kg 500
Dimensions (L x W x H) approx.	mm 1055 x 593 x 757
Weight approx.	kg 6.3
